## PRE-ANESTHETIC BLOOD & SERVICES AUTHORIZATION FORM

PLEASE READ CAREFULLY.

Our greatest concern is the well being of your pet. Before putting your pet under anesthesia, we routinely perform a full physical examination. Our doctors always recommend, and sometimes require, a **Pre-Anesthetic Screen** be performed on all pets undergoing anesthesia to maximize patient safety.

### BLOODWORK:

Please indicate desired choice:

- Pre-Anesthetic Screen:** \$ 29.70  
Complete Blood Count & Total protein  
Red Blood Cell Count (Anemia), White Blood Cell Count (Infection)  
Platelet Count (Clotting Disorder/Tick diseases)
  
- Comprehensive Profile:** \$ 51.70  
BUN and Creatinine (Kidney), ALKP and ALT (Liver),  
Glucose (Sugar), Total Protein (Dehydration),  
and Electrolytes (Imbalance).
  
- Comprehensive and Complete Blood Count:** \$69.30  
The "Complete Picture of Your Pet's Health."  
Recommended for animals 8 years or older
  
- Owner Elects to Decline** the recommended pre-anesthetic blood tests at this time, but requests that we go forth with the procedure. INITIAL HERE \_\_\_\_\_

### PAIN MANAGEMENT:

While undergoing surgery your pet will receive a pain injection that will last 24 hours. Additional pain medication can effectively control your pet's discomfort during the recovery at home and may speed your pet's recovery. Surgeries such as spays, feline declaws, dental extractions, bone surgeries and other similar surgeries are extremely painful to your pet and pain medication is strongly suggested.

- Please send home pain medication with my pet
- I decline pain medication at this time

### CONVENIENT SERVICES:

# SURGICAL & ANESTHESIA CONSENT AND RELEASE FORM

PLEASE READ CAREFULLY.

## Hospitalization/Surgical Information

**Preparation**—The skin around the surgical area will be clipped and scrubbed with an antiseptic. We follow sterile procedures taking every precaution to prevent infection to your pet.

**Anesthesia**—Pre-surgical blood work and physical examination will enable us to assess and minimize the risk of anesthesia for your pet. The anesthesia used will be either injectable form, inhalant form, or a combination of both.

**Monitoring**—We further minimize anesthetic risk by monitoring heart rate and rhythm, respiration rate and quality, oxygenation, and depth of anesthesia during the procedure.

**Pain Management**— Animals perceive pain in a similar way to humans, through the nervous system. We will proactively manage pain associated with any procedure with appropriate pain management medications. This medication will not remain effective once home. Our doctors strongly advise in any surgical procedure that pain management medications be taken home.

## Authorization and Risk Assessment

I authorize anesthesia/surgery for my pet. The nature and risks of this procedure have been explained to me. I understand that some risks always exist with anesthesia and/or surgery, and I am encouraged to discuss any concerns I have about those risks with my veterinarian before the procedure(s) are initiated. My signature on this consent form indicates that any questions have been answered to my satisfaction.

I authorize Animal Clinic of Ava to perform any additional diagnostic, treatment or surgical procedure(s) deemed necessary for medical or surgical complications or otherwise unforeseen circumstances at my own expense. While Animal Clinic of Ava provides high quality of anesthesia monitoring and surgical services, I understand that there are rare complications associated with any anesthetic or surgical procedure. No warranty or guarantee has been given to me as to the results or cure afforded by these treatments or procedures.

I fully understand these risks and understand that the veterinarians and hospital staff will try to minimize such risks. I will not hold Animal Clinic of Ava, the veterinarians, or any staff member liable for any complications that may arise.

## I HAVE READ AND FULLY UNDERSTAND THIS SURGERY AND ANESTHESIA CONSENT FORM.

I have not given my pet any food or water after Midnight of the night before the procedure, unless otherwise advised by my doctor. I understand that this is important for anesthesia safety.
