Revised **Effective June 2nd, 2020**

Dear Client,

Because of continuing changes to information required on health certificates, we have revised the completion forms for health certificates. This document will now be required to be filled out prior to your veterinary check appointment. Please fill out **ALL** of the information below for our receptionists to accurately complete your health certificate in a timely manner. At the bottom of the form, you will notice potentially needed information depending upon which state your animal is traveling to. This form has been updated, and broken down in each section, to make it easier for our clients. Please read through this section **carefully** and be sure to provide all required information. Thank you for your understanding as we implement this new revised document. We appreciate your business!

Sincerely,
Animal Clinic of Ava Doctors and Staff

Florida: Please Read Carefully

Florida requires type, manufacturers, expiration dates, lot numbers, and date(s) given for all deworming's and vaccinations. This includes *all 5-ways, 7-ways, and Bordetella*. Florida also requires a negative fecal examined the day of veterinary inspection.

Please write N/A if it has not been given. If your animal is less than 12 weeks old, we will state that your animal is "deemed too young for Rabies and Leptospirosis vaccinations."

****You may also attach the stickers off the vaccines as a substitute. Please still provide date given.**
